Dear Bea Santana,

My name is Jose Manuel and I am the technical supervisor of the development team at PTV Telecom and I am delighted to recommend Perico Garcia for the position of python back-end developer at nflux.

He is responsible, punctual and extremely hardworking. I was impressed with his knowledge of Python and his agility with Mongoddb. Perico Garcia has a great capacity for self-management and combines it with his ability to listen and work as a team. He also have a C2 certificate in English, so they will be able to communicate effectively when they need to.

I think that she would fit perfectly in nflux and I trust that my recommendation will be valued positively. If you'd like to talk more about my experience with Perico Garcia, please email me at [j.moreno.bolivar@gmail.com](mailto:j.moreno.bolivar@gmail.com) or call me at +34618188807.

Sincerely,

Jose Manuel Moreno  
Technical supervisor  
PTV Telecom
